

Shur Shock Xtra (Model 2850)

AC-powered fence controller with Fence Condition Indicator

Excellent value—Hallman's most popular fencer

Hallman's Shur Shock Xtra is a high-value, high-performance fencer, at a reasonable price. The Shur Shock Xtra can power up to 25 miles of fence wire, even with vegetation or poor insulation. The direct current (DC) pulse, low-impedance design ensures minimal voltage drop over the length of the fence.

The Shur Shock Xtra includes a Fence Condition Indicator that automatically shows the condition of the fence. You can instantly tell if there is adequate guard voltage on your fence—no more guessing!

The Shur Shock is ideal for most electric fence needs, including predator control and livestock confinement.
