

Stockman Xtra (Model 6050)

AC-powered fence controller with Fence Condition Indicator

Excellent value for medium-sized operations

Hallman's Stockman Xtra is a high-value, high-performance fencer, at a reasonable price. The Stockman Xtra can power up to 30 miles of fence wire, even with vegetation or poor insulation. The direct current (DC) pulse, low-impedance design ensures minimal voltage drop over the length of the fence.

Stockman Xtra includes a Fence Condition Indicator that automatically shows the condition of the fence. You can instantly tell if there is adequate guard voltage on your fence—no more guessing!

The Stockman is ideal for most electric fence needs, including predator control, livestock confinement, sheep confinement, and pasture management.
